copychigo@gmail.com | <https://chigoiluno.com> | [LinkedIn](#)

PROFESSIONAL SUMMARY

A **Cloud infrastructure and Security expert** with 7+ years of experience designing, securing, and optimizing enterprise cloud environments across Microsoft Azure.

- Proven record of accomplishments in leading cloud transformation initiatives, strengthening security posture, and improving operational efficiency across mission-critical workloads.
- Expertise in Zero Trust architecture, identity and access management, cloud migrations, and security operations.

CORE SKILLS

Project Management: Cloud transformation, stakeholder engagement, solution delivery, incident response coordination, SLA management

Business & Consulting: Cloud strategy, security advisory, governance & compliance, risk management, enterprise architecture alignment

Technical Platforms & Tools: Microsoft Azure, Microsoft 365, Entra ID, Azure Sentinel, Defender XDR, Intune, Azure DevOps, CI/CD, Terraform.

Cloud & Security: Zero Trust architecture, IAM, Conditional Access, MFA, PIM, SIEM/SOAR, EDR/XDR, cloud migrations, hybrid identity, AVD

Networking & Infrastructure: Azure networking, VPN, firewalls, load balancing, DNS, VNET peering

PROFESSIONAL EXPERIENCE

Cloud Solutions & Security Specialist | Eastbay Technologies Inc. **Jan 2022 - Mar 31 2026**

- Designed and deployed a secure application publishing architecture using Application Gateway with WAF, enabling secure external access and thwarting 99.8% of cyber threats.
- Developed and implemented Cloud security policies across the organization, resulting in zero data breaches over 4 years
- Delivered \$20K–\$35K in cloud cost savings across multiple clients through architecture optimization and adoption of cost-efficient cloud solutions.
- Architected disaster recovery solutions across cloud and on-premises environments, increasing data recovery speed by 50% and achieving 99.9% uptime, enhancing business continuity.

Principal Consultant | CloudryOne

Jul 2020 – Dec 2021

- Delivered Microsoft 365 security architecture, improving compliance posture by 20% across client environments.
- Implemented Microsoft Intune and endpoint management solutions, increasing device compliance and governance efficiency by 25%
- Designed and deployed secure Azure networking architectures, improving system performance and reliability by 30%.
- Orchestrated a company-wide Cloud security audit and implemented strategic enhancements that achieved 80-95% compliance with industry regulations and standards.

Technical Lead | Tek Experts

Feb 2020 – May 2020

- Led escalation management for complex Azure issues, reducing resolution time by 25 - 40% and improving service delivery efficiency
- Mentored and supported a team of engineers (10-15 members), improving troubleshooting efficiency and resolution quality by 20%
- Collaborated with cross-functional teams (applications, compute, identity, and networking) to deliver timely issue resolution, improving SLA adherence by 15–25%
- Reviewed and validated architecture designs, strengthening security posture and reducing configuration risks by 20%

Azure Network Technical Support Engineer | Tek Experts

Apr 2018 – Feb 2020

- Resolved complex Azure networking issues across hybrid environments.
- Optimized VPN connectivity across enterprise firewall platforms, improving network performance and stability by 35%.
- Performed network diagnostics, reducing recurring incidents by half.

Graduate Intern | Globacom

Aug 2017 – Apr 2018

- Supported telecom infrastructure maintenance, improving uptime by 30%.
- Monitored network performance and resolved faults, contributing to improved service quality and reduced downtime

EDUCATION

Postgraduate Program: Cloud Computing – Texas McCombs School of Business **2025**

MSc: Wireless Communication & Networking – Aston University **2015**

BSc: Telecommunications & Computer Network Engineering – London South Bank University **2013**

CERTIFICATIONS

Microsoft Certified:

- Cybersecurity Architect Expert **2024**
- Azure Security Operations Analyst **2022**
- Azure Solution Architect Expert **2019**
- Azure Security Engineer Associate **2019**
- Microsoft Certified Trainer **2019**
